Career Objective

Electrical and Electronics Engineering undergraduate passionate about software development, cloud computing, and SAP technologies, seeking an entry-level position to contribute to building scalable and innovative technology solutions while continuously learning and growing in a dynamic environment.

Education

- **Bachelor of Engineering (B.E.), Electrical and Electronics Engineering** **2027**
  Karpagam Institute of Technology, Coimbatore

Technical Skills

- **SAP:** ABAP,RAP ,CDS View , Fiori.
- **Cloud Computing:** AWS(EC2,S3,Lambda,RDS).
- **Programming:** Java, C (fundamentals).
- **Database:** SQL, DBMS (concepts).
- **Familiar with:** HTML, CSS.
- **Tools Platforms:** Git, GitHub,Vscode, Eclipse.

Projects

- **Engineering Cutoff Calculator** Project-Link
  Developed a responsive web application that calculates engineering admission cutoff marks based on student inputs. The application delivers instant and accurate results through a clean and user-friendly interface, enabling students to quickly evaluate their eligibility.
- **Event Management System** GitHub
  Designed and implemented relational database tables for managing event details, participant information, and registration tracking. Developed SQL queries for efficient data insertion, updates, and retrieval operations.
- **Automated File Conversion System with Real-Time Alerts** GitHub
  Built a cloud-enabled application that automatically converts CSV files into JSON format. Configured automated workflows and email notifications to ensure timely file processing and real-time user alerts.
- **Municipal Management System** GitHub
  Developed a Municipal Management System to manage street information and track civic issues. Implemented CRUD operations using SAP ABAP RAP, CDS Views, Behavior Definitions, and OData V4 services, with a user-friendly SAP Fiori interface for efficient street and problem management.

Certifications & Achievements

- **NPTEL Certification:** Data Structures and Algorithms
- **AWS Certified Cloud Practitioner:** AWS CLF-C02
- **SAP Certified – Back-End Developer:** ABAP Cloud certification.

Additional Information

- Proficient in English and Tamil
- Ability to learn new technologies and adapt to new technical environments.
- Interest in continuous learning and professional development.
